

Information on the conduct for performing the qualification exam in the Graduate program in chemistry of the Universidade Estadual de Londrina

The student regularly enrolled in the Graduate Program in Chemistry must complete the qualification exam, as defined by the CEPE resolution 067/2013, to obtain the Master or Doctor degree in chemistry.

The rules for presenting the qualification exam are defined by the normative act nº 01/2014 of this program. However, it is important to remember that:

- 1- The qualification exam must be requested online by the student at the student's area. For that, the student must have all the credits required and have been approved in the proficiency exam.
- 2- Having received the confirmation that the student is able to take the qualification exam, the student must send an email to the coordination of the program with four names of possible participants in the board of the exam. The participants of the board must have a PhD degree, a recognized scientific publication and be a supervisor in a graduate program.
- 3- Then, the coordination will respond the e-mail indicating the names selected to compose the exam board.
- 4- After that, the student is responsible for fill the application form at the graduation Secretariat, have it signed by his supervisor and return it back.
- 5- Finally, the student is also responsible for contacting the board members to check their availability of time and day for the exam and book the room.
